

AHMAD OMRAN

Beirut-Lebanon | +96170490779 | aomran808@gmail.com

Introduction

An energetic and imaginative young web developer who is able to work alongside other talented software engineers in creating websites to the very highest standards.

I have high awareness of new technologies, trends and I'm always open to learning them.

I have the drive and energy needed to really make a difference to a project.

Right now I am looking for an entry level position to improve my skills on both the frontend and the backend.

Education

- Bachelor in General Physics – Lebanese University Faculty of Science (2017-2020)
- High School - General Science (2014-2017)

University Courses

- C programming language
- C++ programming language
- Matlab

Certificates

- Full stack web development program from Udacity

Skills

- Comprehensive knowledge of JavaScript, HTML5 and CSS3.
- Worked with Flask framework and PostgreSQL.
- Intermediate understanding of web concepts and backend architecture (MVC).
- Basic knowledge of React and Node JS.
- Familiar with Git and GitHub.
